DETAILED ACTION

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-4,12 -16 & 32 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Applicant directs us to [0020] as support for 35%; BUT, only siloxanes are shown there as supporting 35%, & clearly, as previously argued, siloxane is insecticidal; it's not as inert as Singer claims the polysorbate to be. The siloxane use is supported by the declaration.

Furthermore, at claim 12, where is it disclosed that one is to strip the wax from the cuticles, & how would one do that? Examiner concludes, absent any such instructions evident in the specification, the stripping of the wax is not performed by one of ordinary skill in the entomological or ectoparasiticial arts, but rather occurs as the result of the application of the composition. The requirement for stripping of wax follows administration & retention for 10 minutes of the composition . It is unclear whether the

dehydration precedes or follows the stripping of wax, & whether the 1 hour begins after dehydration or wax stripping.

Response to Arguments

Applicant's arguments filed 12/20/2011 have been fully considered but they are not persuasive. Applicant's arguments are addressed above. In essence, while the amendments may overcome the art of record, they generate new matter concerns & enablement issues. Although the rejections over Singer & REID are withdrawn, they, & possible re-consideration of art of record regarding Siloxanes, may be re-instated upon re-submission of a continuing case or CIP.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
